

## Abstract

Pyrimido[5,4-e][1,2,4]triazine-5,7-diones, processes for preparing them and their use

5

The invention relates to pyrimido[5,4-e][1,2,4]triazine-5,7-diones, pharmaceutically acceptable salts thereof and physiologically functional derivatives.

10 The invention therefore relates to compounds of the formula I,

I

15 in which the radicals have the given meanings, and to their physiologically tolerated salts and processes for preparing them. The compounds are suitable for use as antidiabetics, for example.
